INTRODUCTION

Starting a business is one of the most exciting and challenging things you'll ever do. It's also one of the most rewarding.

This checklist is designed to guide you through every critical step of launching your business—from the initial idea to your first paying customer.

We've broken it down into six phases:

1. Define Your Business Model
2. Register Your LLC
3. Set Up Your CRM
4. Launch Your Website
5. Start Social Engagement
6. Automate Lead Capture

At ZDOT, we help businesses like yours launch and grow. Our SWARM ecosystem gives you the tools you need to capture leads, build communities, and close deals.

Let's get started.

"A goal without a plan is just a wish."

Checklist

- ☐ Identify your target market and ideal customer profile
- ☐ Define your value proposition—what makes you different?

- ☐ Set SMART goals for your first 90 days

Pro Tip

Your business model should solve a real problem for a specific group of people. If you can't explain what you do in one sentence, keep refining.
